69	(69)-III C 1 b) Obtains gynecological cultures													1	1	1		1			1	1																																								1				7
70	(70)-III C 2. The size of the uterus and fetal age (by bimanual exam), the condition of the vulva, vagina, cervix, perineum and anus													1	1	1	1	1			1	1		1							1																															1				10
71	(71)-III D. Estimates due date based upon a variety of methods			1							1			1	1	1	1	1		1	1	1																																								1				11
72	(72)-III E. Assesses fetal weight, size, lie, or lightening										1			1	1	1	1	1		1		1																																								1				9
73	(73)-III F. Assesses correlation of weeks gestation to fundal height'										1			1	1	1	1	1		1		1																																								1				9
74	(74)-III *G. Performs routine prenatal physical exams										1			1	1	1	1	1		1	1	1																																								1				10
75	(75)-III H. Evaluates laboratory and medical records from other practitioners													1	1	1	1	1		1	1	1		1							1																															1				11
76	(76)-III I. Obtains assistance evaluating laboratory and medical records from other practitioners													1	1		1	1		1	1	1		1																																						1				9
77	(77)-III J. Records results of the examination in the prenatal records													1	1		1	1		1	1	1									1																															1				9
	III K. Provides prenatal education and counseling for:																																																																	
78	(78)-III K 1. Nutritional, and non-allopathic dietary supplement support										1			1	1		1	1		1	1	1																																								1				9
79	(79)-III K 2. Common complaints of pregnancy										1			1	1	1	1	1		1	1	1																																								1				10
	III L. Recognizes and responds to potential prenatal complications by:																																																																
80	(80)-III L 1. Identifying pregnancy-induced hypertension										1			1	1	1		1		1	1	1																																								1				9
81	(81)-III L 2. Assessing, educating and counseling for pregnancy-induced hypertension using a variety of methods										1			1	1	1	1	1		1	1	1																																								1				10
82	(82)-III L 3. Identifying preeclampsia and collaborating and managing preeclamptic mothers										1			1	1	1	1	1		1	1	1																																								1				10
83	(83)-III L 4. Identifying and turning breech presentations										1			1	1	1	1	1			1	1																																								1				9
84	(84)-III L 5. Identifying multiple gestation pregnancies										1			1	1	1	1	1		1	1	1																																								1				10
85	(85)-III L 6. Identifying and dealing with pre-term labor										1			1	1	1	1	1		1	1	1																																								1				10
86	(86)-III L 7. Assessing, evaluating and treating a post date pregnancy										1			1	1	1	1	1		1	1	1																																								1				10
