NCM Academic Course Syllabi Summary Sheet

Version 8/7/07
 Page 1 of 2

Student Name: _____ Preceptor Name: _____

Students and preceptors have two options for completing the required academic portions of their program: they can either use the approved NCM Official Sample Syllabi, or they can design their own courses as long as they contain all the NCM learning objectives. All self-authored courses must be submitted and approved by NCM prior to the student beginning study in that course. In either case, this form should be completed and signed by the preceptor and student prior to study.

A) We have read, understood and agree to follow the curriculum as set forth in the NCM Syllabus for each academic course.

Or

B) We have attached my proposed syllabus for each self-authored course and agree to wait for approval before beginning study.

Check one:

I will be using the NCM Official Syllabus for this Course I will be using a Self-Authored Syllabus for this Course
